
CARE-O-BOT-RESEARCH: PROVIDING ROBUST ROBOTICS HARDWARE TO AN OPEN SOURCE COMMUNITY

Dipl.-Ing. Florian Weißhardt

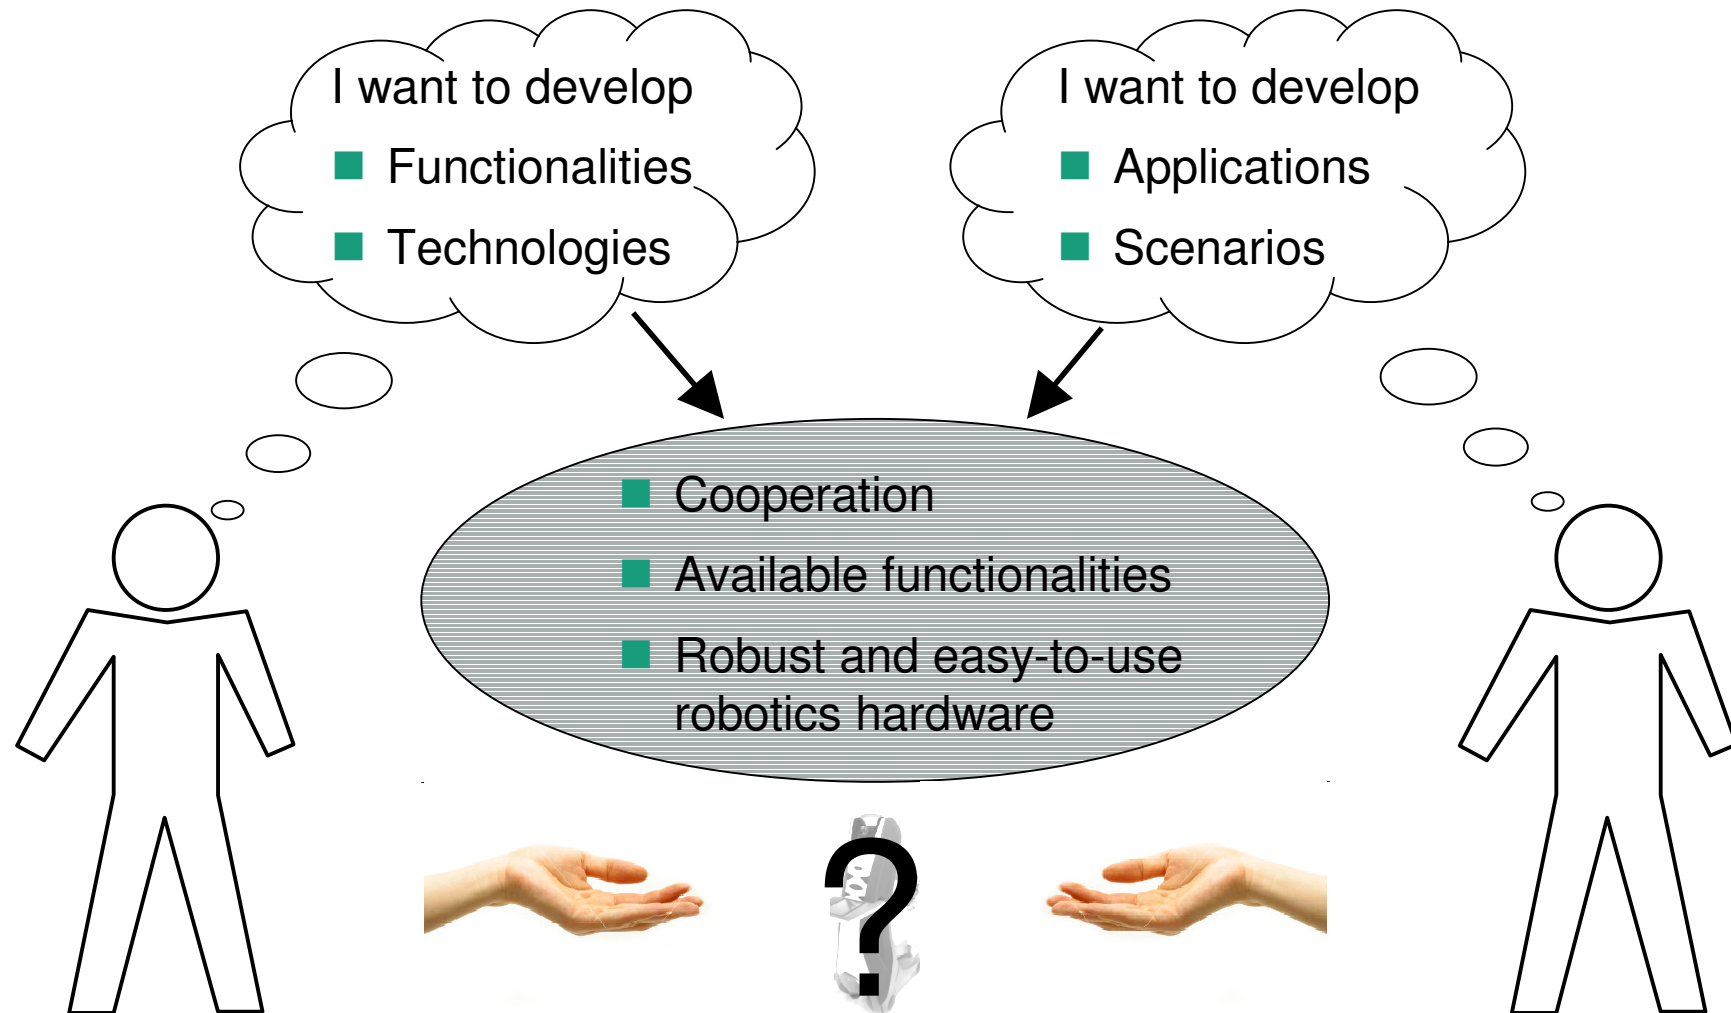

Fraunhofer Institute for Manufacturing Engineering and Automation IPA

Outline

- Objective
- Care-O-bot[®] 3 platform
- Open source hardware drivers and simulation
- Remote access via web portal
- Conclusion and outlook

Common needs for research and development

Providing Care-O-bot® 3 for different user groups

Outline

- Objective
- Care-O-bot[®] 3 platform
- Open source hardware drivers and simulation
- Remote access via web portal
- Conclusion and outlook

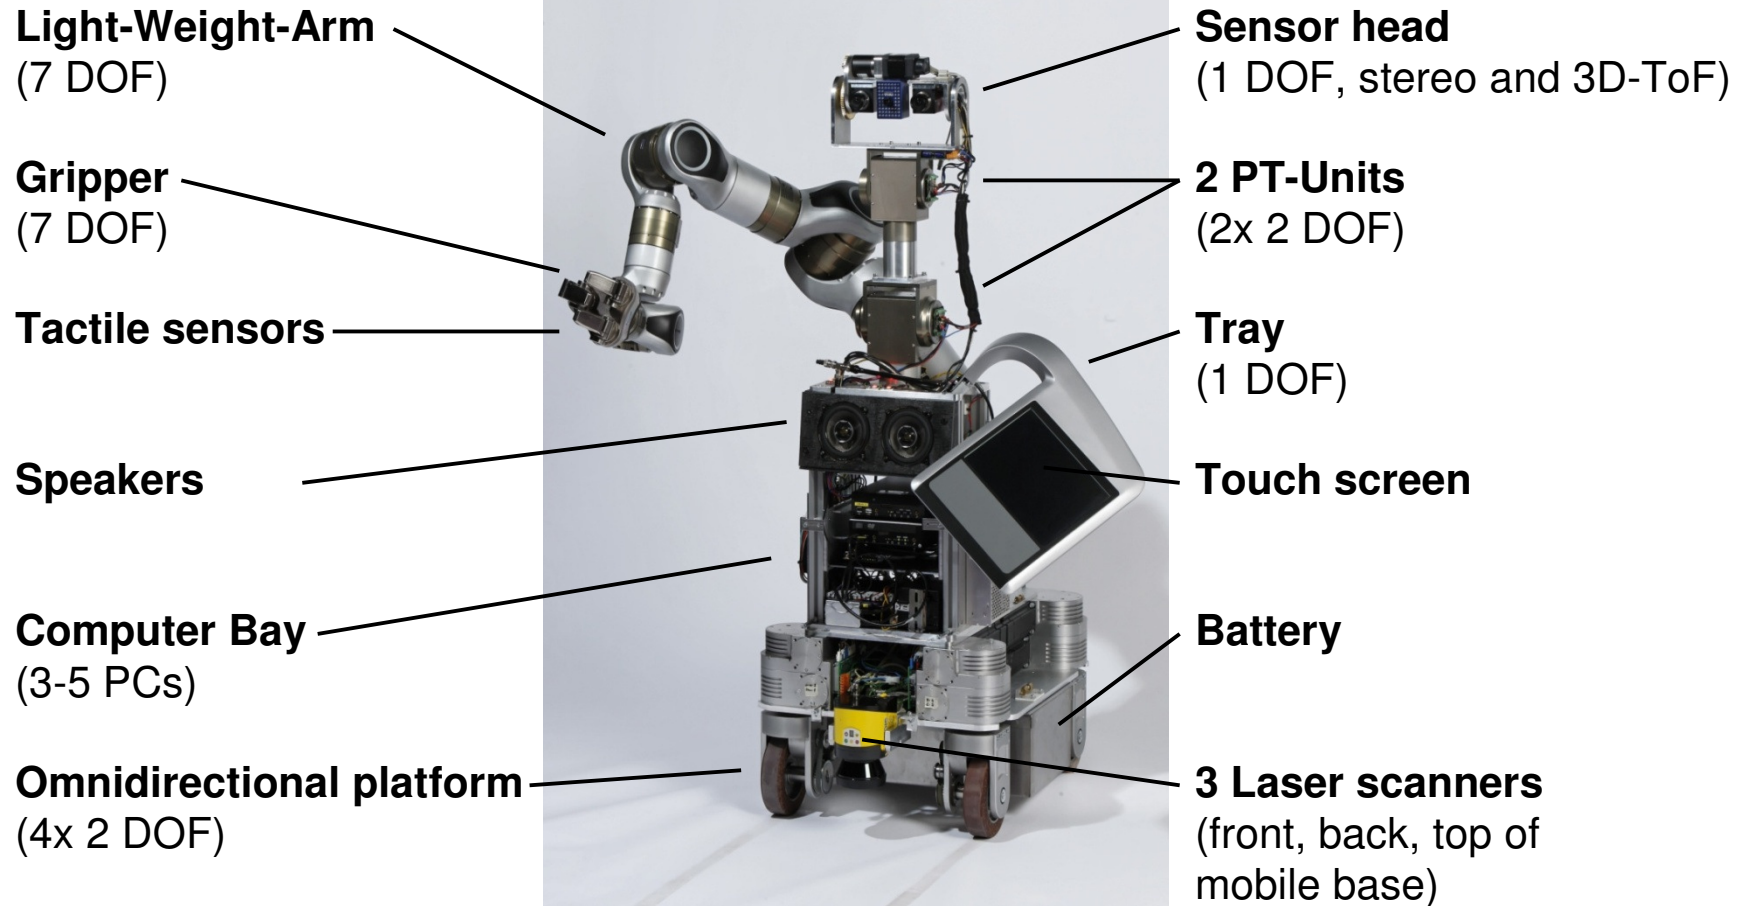

Care-O-bot[®] 3 mobile manipulation platform

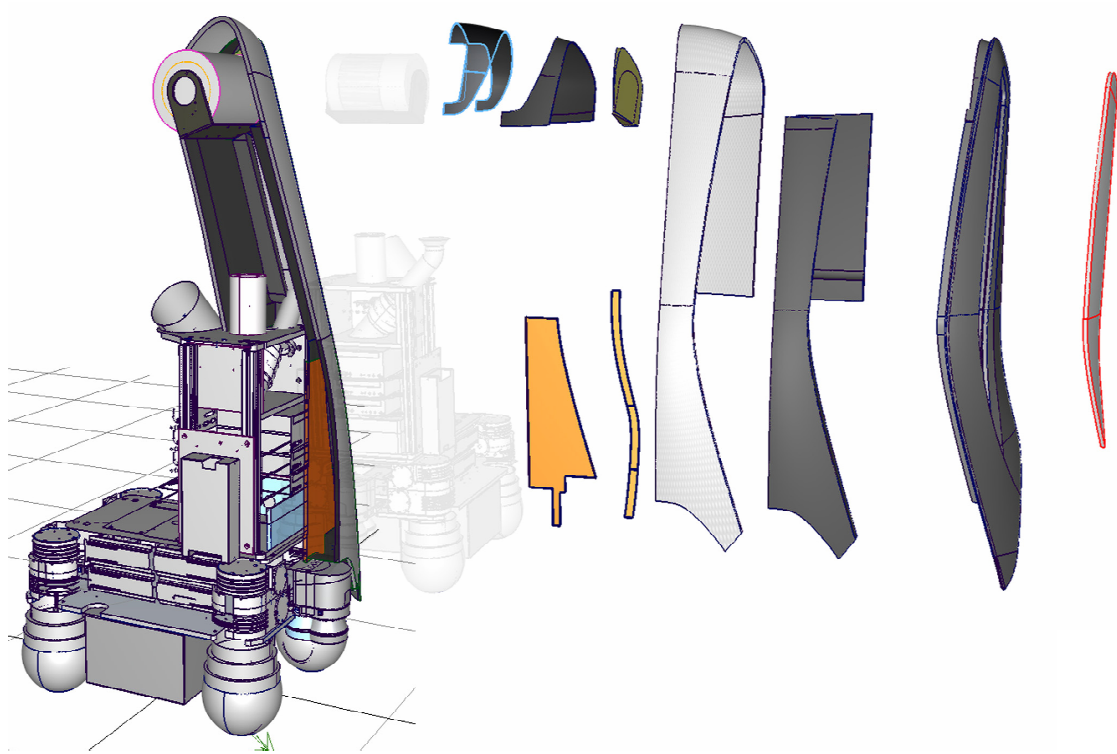

- Product vision, realized in 2008
- Functional design
- Two-side interaction concept
- Industrial grade components
- Reliable, robust and capable
- Compact integration
- Flexible system layout
- Easily extensible

Industrial grade hardware components

Flexible casing

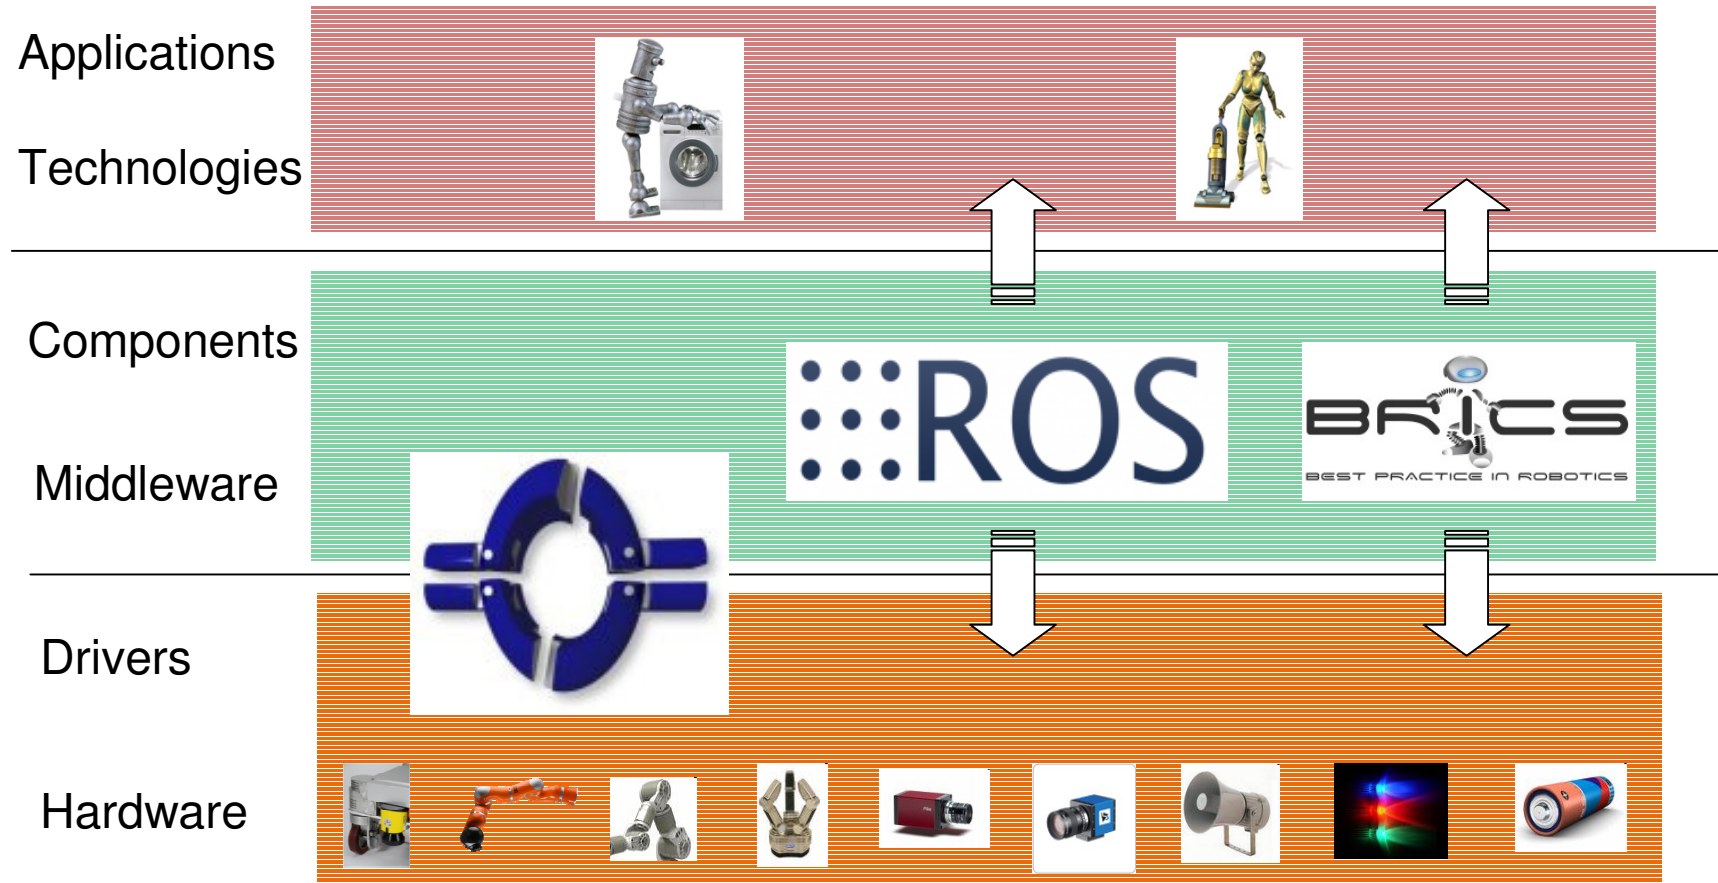

- For demonstration purposes or user studies
- Attractive and product like

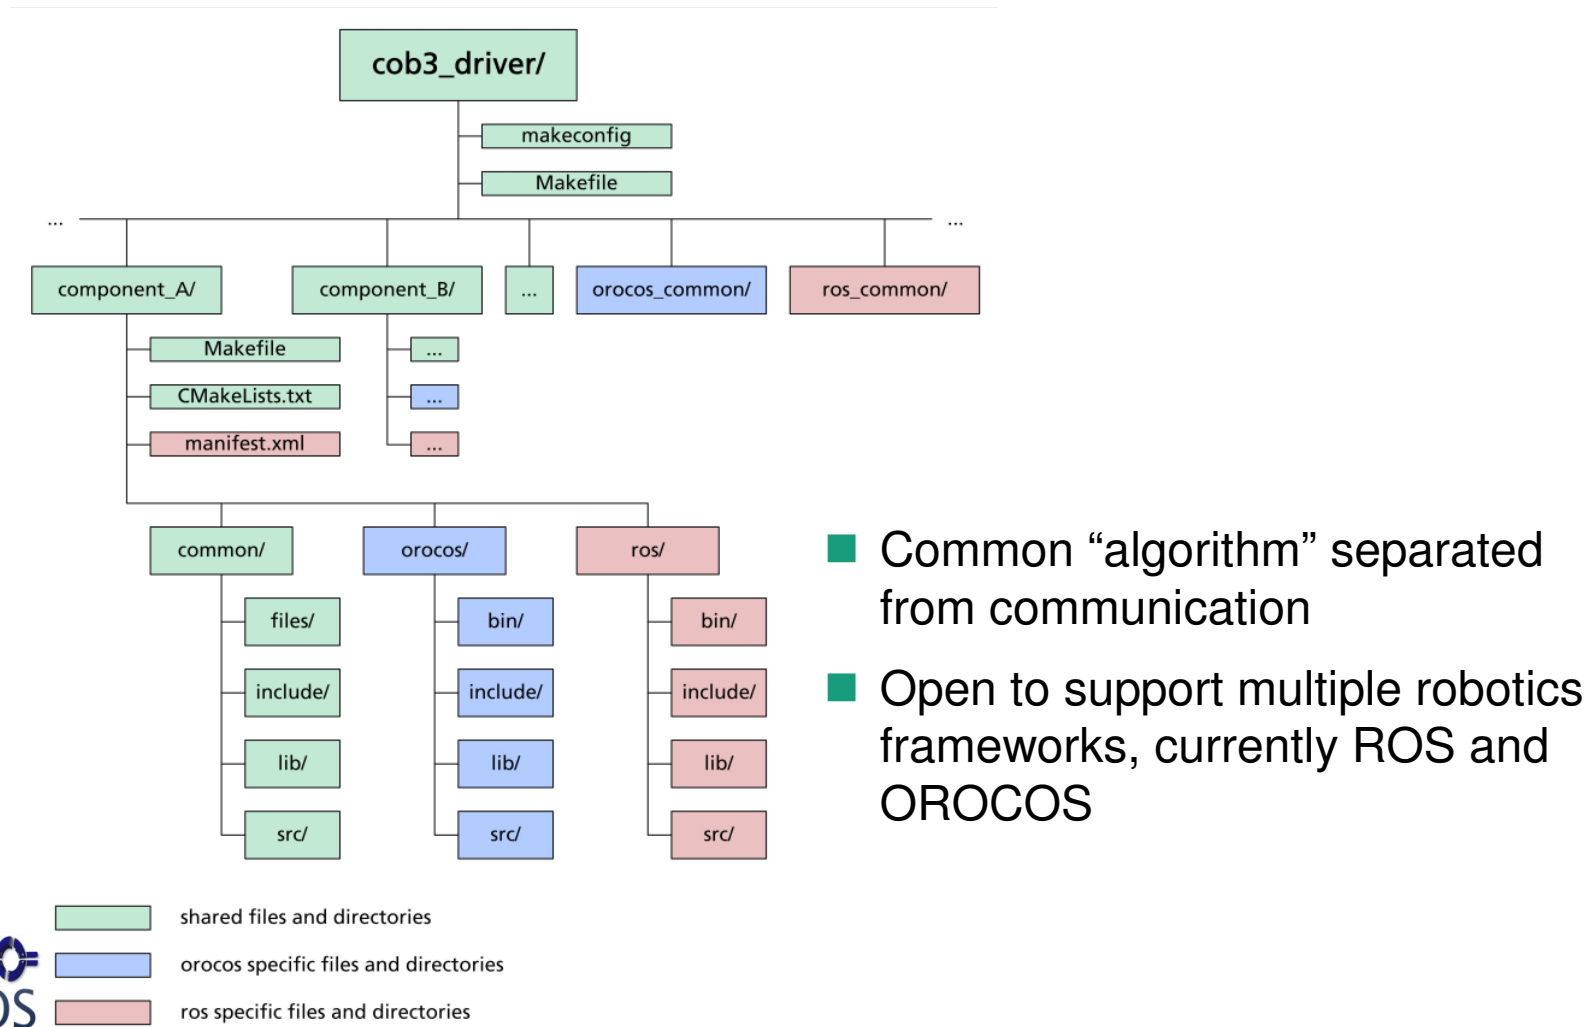

Outline

- Objective
- Care-O-bot® 3 platform
- Open source hardware drivers and simulation
- Remote access via web portal
- Conclusion and outlook

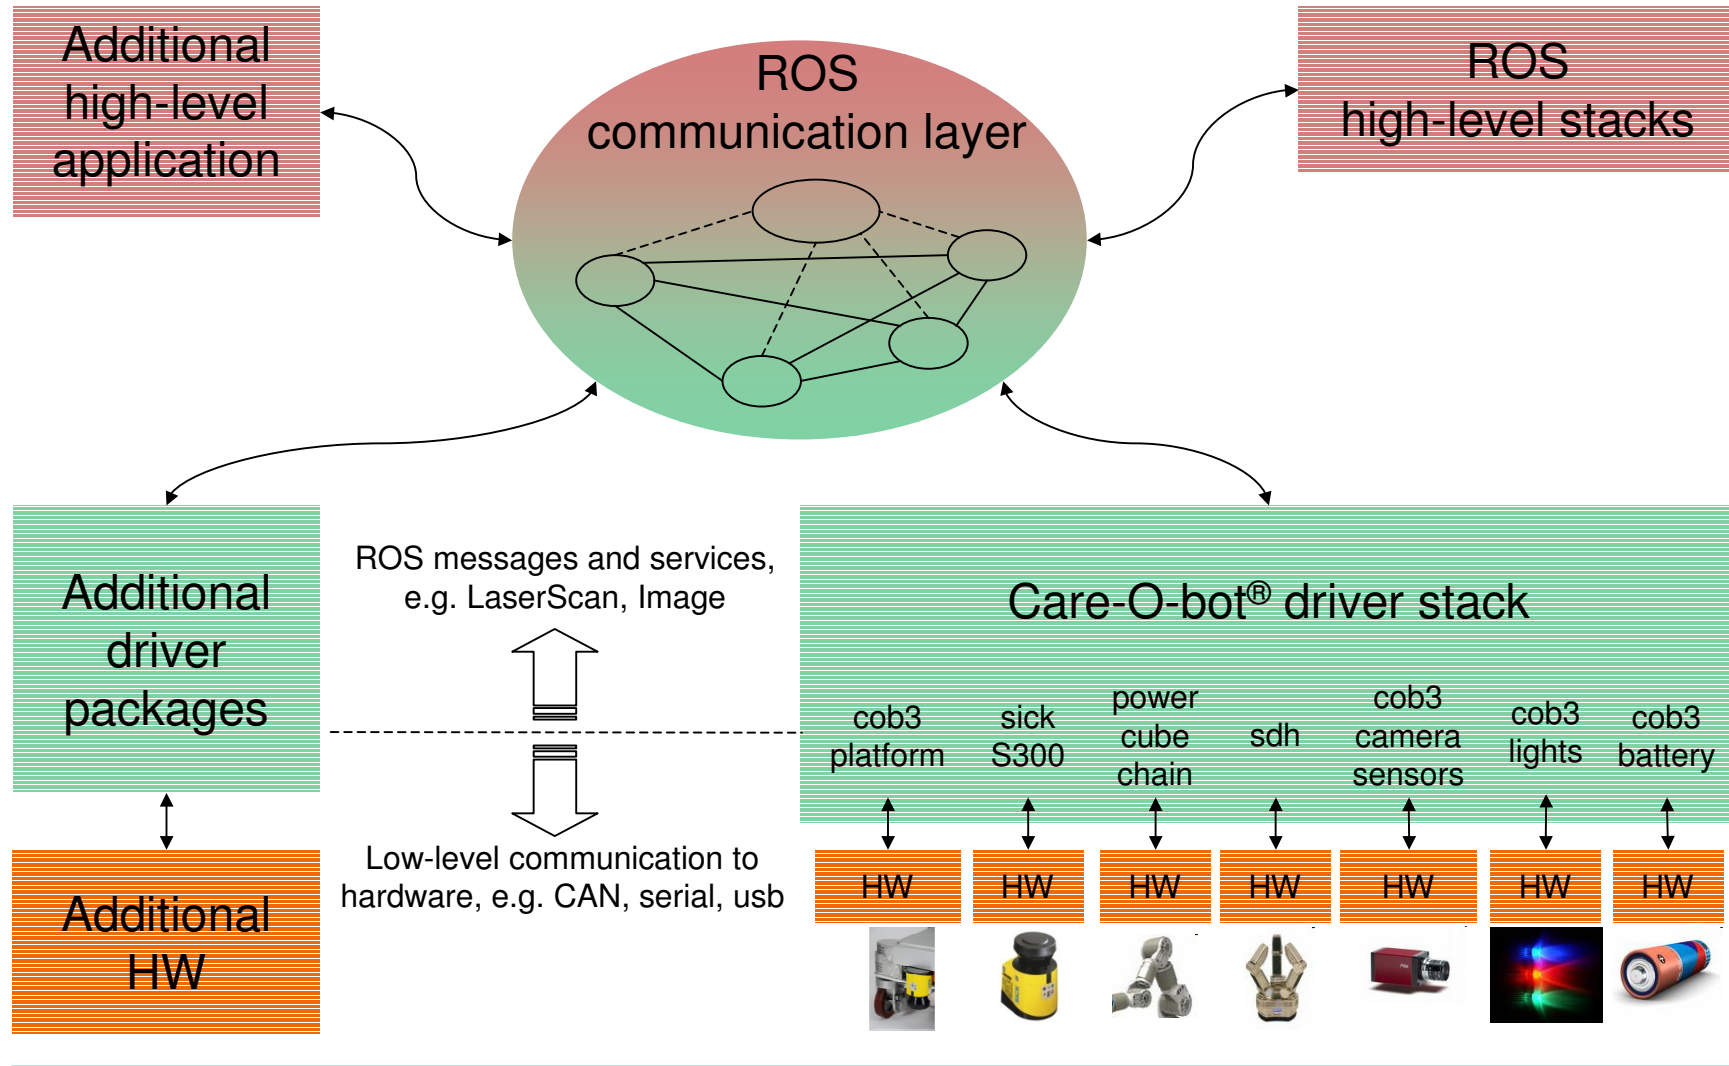

Layered architecture

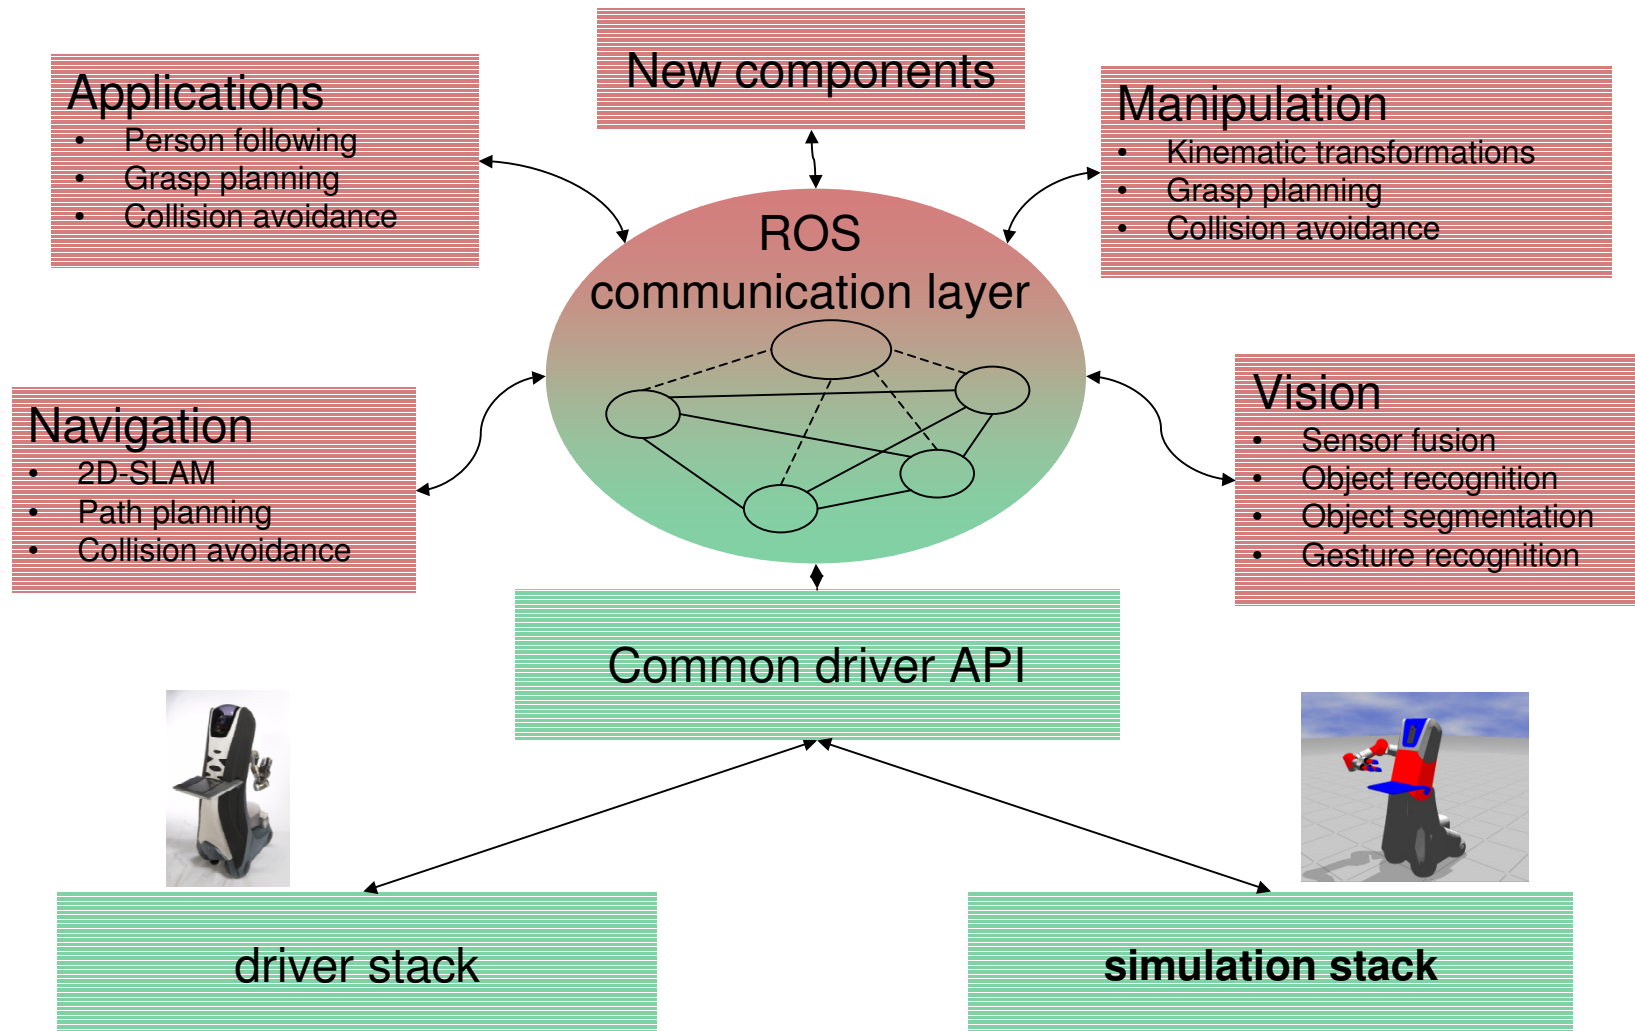

Extendable open source repository

Integration of Care-O-bot[®] 3 drivers with ROS

Multitude of built-in components and functionalities

Simulation and visualization for realistic scenarios

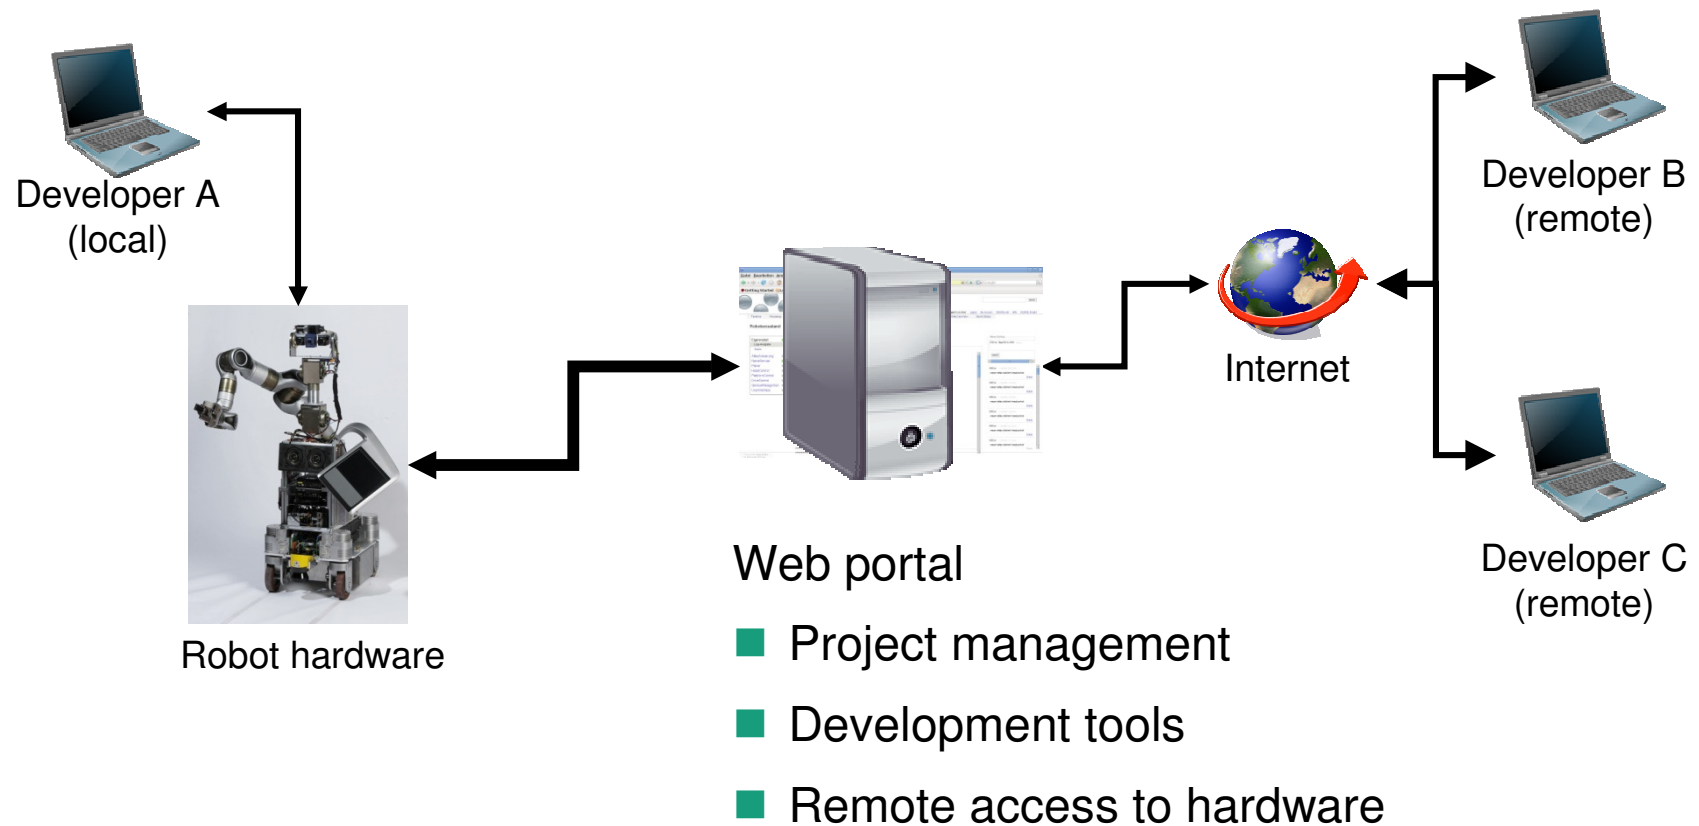

- Single simulated components
- Simulated sensors and actors, e.g.
 - Arm joints, hand
 - Cameras, laser scanners
- Model of the whole robot
- Kinematic and dynamic models of hardware components
- Environment modelling

Outline

- Objective
- Care-O-bot® 3 platform
- Open source hardware drivers and simulation
- Remote access via web portal
- Conclusion and outlook

Remote access via web portal

Sharing functionalities

Outline

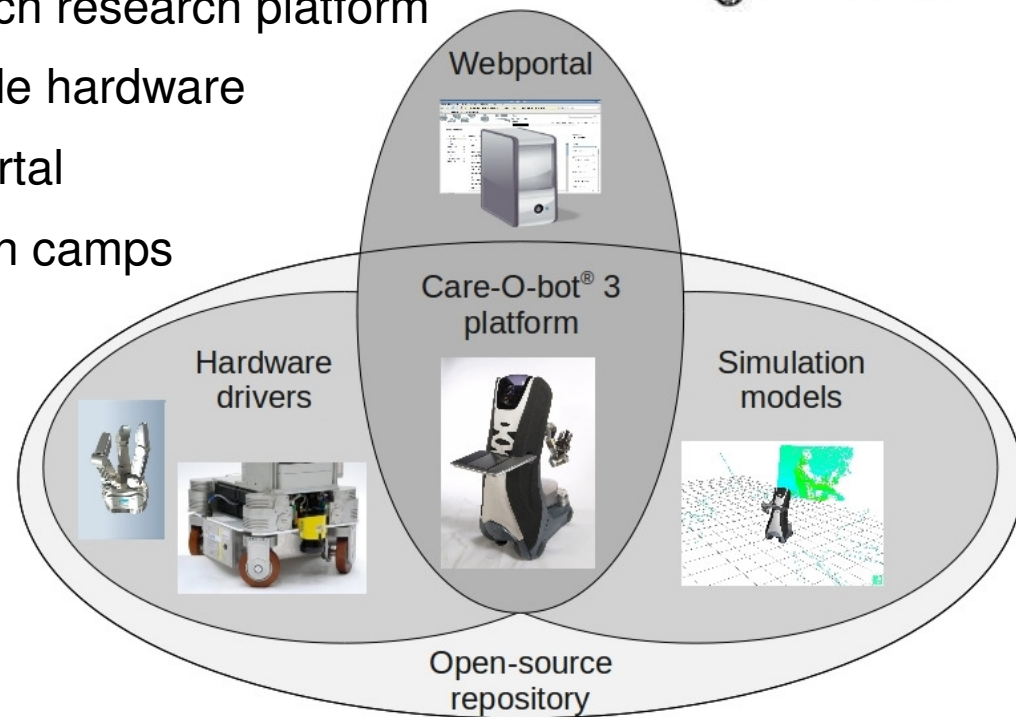

- Objective
- Care-O-bot® 3 platform
- Open source hardware drivers and simulation
- Remote access via web portal
- Conclusion and outlook

Conclusion

Focus on **your research topics** without caring about the hardware!

- The Care-O-bot® research initiative offers
 - Care-O-bot® 3 as a high-tech research platform
 - Reliable, robust and capable hardware
 - Remote access via web portal
 - Direct access, e.g. research camps
 - Rent or buy Care-O-bot® 3
