Package 'r4ds.tutorials'

June 5, 2025

Title Tutorials for ``R for Data Science''

Version 0.3.2

Description When assigned ``R for Data Science'' (Wickham, Çetinkaya-Rundel, and Grolemund (2023, ISBN: 1492097402)), students should read the book and type in all the associated R commands themselves. Sadly, that never happens. These tutorials allow students to demonstrate (and their instructors to be sure) that all work has been completed. See Kane (2023) <https://ppbds.github.io/tutorial.helpers/articles/instructions.html> from the 'tutorial.helpers' package for a background discussion.
